

# OMEGA 61

SEAFOOD TRADING LTD.CO

## ABOUT US

Established in 2010 in Darıca, within the Akçaabat district of Trabzon, Turkey, Omega 61 is a leading player in the fish production industry.

*With an annual capacity of 20.000 tons, our focus spans Rainbow trout (Turkish Salmon), Black Sea trout, and Sea Bass.*

As part of a dynamic group comprising 12 companies across Turkey, we strategically position ourselves to cater to diverse regions. Operating two fish processing factories and maintaining 12 offshore fish farming facilities along the Black Sea coastline.

Our company prioritizes quality, customer satisfaction, and maintains the highest hygiene standards in our production processes. Our Global GAP certifications reflect our unwavering commitment to food safety and quality control.

## WHAT WE CAN PROVIDE?

We offer flexibility to our valued customers by preparing our products according to their preferences. This includes freezing fish in their desired cut, bulk packaging options with or without glazing, and customization of the desired ratio. Our team is wholeheartedly committed to ensuring that your specific needs are met in preparation for shipment.
